Subject: RE: RFP for Ked removal--FYI

We have bidders, do you have any \$\$?

Bids came back around \$400,000 to scrap the ship. We have about \$600,000 in the DVRP account for the biennium (through June 07) from which we have to cover at least the Ked, another other like it, two humongous floating drydocks on lake Washington, and two hundred thousand worth of small boats that San Juan County is removing this year. It will probably be about \$150-200,000 to scuttle it; we could afford that but no one wants to do it. We may just have to buy the anchors we've got on it and wait until we accrue more funds in the account (sob). Any ideas for fundraising would be good at this point. Every \$10,000 will help.

Melissa,

So, do you have a bidder? Ked is rolling in the mud today. See attached picture.
